

ABOUT THE STATE

Happenings of Interest from Different Sections.

Lake Champlain shows no signs of freezing over except in the coves and bays.

Forrest Richardson, who went from West Glover to Rochester, N. H., to see his sister, who was ill with the influenza, was himself taken ill with the disease and died there.

Chester, eight-year-old son of Mr. and Mrs. Chester Barnes of Essex Junction, while sliding on a hill, ran into an old tree and caught his ear on a twig in such a manner as to tear it from his head. Three stitches had to be taken in it.

A man who gave his name as Arthur J. Brooks worked a bad check game on merchants in West Rutland, Rutland and Windsor, within a few days and on one check for \$8 he raised the amount to \$800. Then he skipped. It was the raising of the check that caused his detection.

James E. Tracy, for many years connected with the editorial department of the Burlington Daily News, who was accepted as a Y. M. C. A. secretary for overseas work and then was notified that no more were to be sent across, has been accepted a second time and expects to sail from New York for France this week.

A fire at the plant of the Vermont Milk Chocolate company in Burlington early Wednesday morning started from the blower pipes which take the heat from the cocoa bean after it has been roasted, and both city fire trucks responded to the call for assistance. It was put out, however, by hand extinguishers before the trucks arrived. The fire that destroyed the whole plant some months ago is supposed to have started in the same way as Wednesday's.

Evan Sargent, son of Mr. and Mrs. C. L. Sargent of Jamaica, is back at his home being honorably discharged from service. He enlisted two years ago and is now only 17 years old. He was wounded four times, was in the hospital three weeks at another time, was gassed once and had four horses shot from under him. He was on the Toul front, Chateau Thierry and was wounded at Baccarat and also at Verdun. One wound was on one hip, where he wears a silver plate to protect the bone, another was on one foot and a third in his stomach. However, he has recovered from the gassing and is not lame from his wounds.

Chinese Girls Follow Americans.

While the eyes of the world seem to have been riveted for over four years on Europe and the Orient, there have been going on in China and the Orient startling developments in educational and recreational lines.

The national Y. W. C. A., which sent 15 secretaries to France for war work and nine to Russia (and many more are planning shortly to leave for the latter country), also maintained throughout the world 78 secretaries in other foreign countries, the greatest number of these, 43, being stationed in China.

The association has introduced into China recreation for girls, recreation that the small-footed Chinese girls have never before dared attempt. Chinese girls are having athletic meets. Large Red Cross centers have been opened at the Y. W. C. A. buildings in the Orient; girls' clubs have been formed with the idea of strengthening friendships and opening up natural lines of social enjoyment. Many dances have been introduced and girls have been encouraged to concentrate their efforts to alleviate suffering in congested and poor districts. In fact the letters from Y. W. C. A. workers in China would seem to say that women in China, at one time thought of as centuries behind other countries, are to-day doing and thinking much the same acts and thoughts as are the women of America.

The Drainage Boosts Values.

Sheboygan county, Wis., farmers received much benefit in 1918 from community tile drainage project conducted by the farm bureau and the county agent. Over 40 farms were visited, 88,000 feet of tile was laid, which reclaimed 75 acres of land. It is estimated that as a result of the land drained, the value of farm lands in the vicinity has increased \$12,000. The project will be continued in 1919, and it is planned to reclaim 500 acres of land.

HEPFULL HAIR HINTS

Worthy the Attention of Everyone Who Would Avoid Dandruff, Itching Scalp, Gray Hairs and Baldness.

"What will stop my hair coming out?" B. B. Parisian says (liquid form) is the best remedy for hair and scalp troubles; said to prevent baldness, grayness and dandruff.

"Before going to bed, I always rub a little Parisian sage into my scalp," says a woman whose thick, soft and fluffy hair is greatly admired. This stops itching scalp, keeps the hair from falling out, and makes it easy to dress attractively.

Beautiful, soft, glossy, lustrous hair for those who use Parisian sage. It's inexpensive and sold by E. A. Brown & Co. and good druggists everywhere, with guarantee of satisfaction or money refunded—Adv.

Farmers Order Line by the Carload.

The Licking county (Ohio) farm bureau ordered 17 carloads of lime this year and lined 400 acres of land. Six new lime spreaders were placed in communities which had never had them. Sixty men, a large majority of whom had never used lime, secured lime through the bureau. The county agent in August made 45 tests in different parts of the county, 39 of which showed the need of lime. Immediate steps were taken to hold meetings to inform the farmers as to lime needs, where it could be secured, price, and how and when to apply it.

How One County Fought Rodents.

More than 50,000 acres of farm land badly infested by prairie dogs was a condition that the Huerfano county (Col.) farm bureau started out to change. With the co-operation of all agencies it is estimated that crops worth \$38,085 were saved during the 1918 season. From 85 to 97 per cent of the pests were killed on the areas treated. Poisoned grain was placed on 50,780 privately owned acres by 300 co-operators at a cost of \$854.20 and 11,130 acres of public lands were treated with poisoned grain by individuals who killed 90 per cent of the dogs and saved crop and range pasturage valued at \$2,782. A co-operative field party treated 27,225 acres of public lands, using 9,040 quarts of poisoned grain, killing 95 per cent of the dogs and saving crop and range valued at \$8,806.

A Man on a Farm Never Has to Look for a Job

Now that the boys are coming home, you will want to have something for them to do. The large place and comfortable home help, so there will not be any call for more; naturally all will turn to God's True Country—the Vermont. The federal government is making plans to help all farm owners. With that aid everyone will be interested in these farms that we have listed below:

308-A—A farm of 100 acres; lays extra nice with near neighbors, between Barre and Montpelier, one of the best farming sections in this vicinity; land very productive and adapted for all kinds of crops; an excellent farm house, sugar orchard, hard wood and soft wood on the place; 20 head of stock; house of 8 rooms, in very good condition; water at house and barn and a telephone; with the farm come 14 cows, nice pair horses, farm is well equipped with farming tools; 300 bu. oats; this farm sells for what we consider a low price, \$5,000; the owner would take a house in the city for part payment.

ANOTHER BARGAIN OF 225 ACRES of excellent laying land, suitably divided into tillage and pasture; large amount of soft and hard wood; with this farm the owner sells 20 head of stock, 10 cows and calves, 2 horses, 2 pigs, all the crops and tools go with this farm for the price of \$5,000.

For further particulars of these and other farms, inquire of
